SUPPLEMENT TO COINS OF THE WORLD

EDITED BY RICHARD D. KENNEY

Several new issues of coins have appeared since the publication of the fourth edition of *Coins of The World* in 1952. Notable among the new post-war countries whose coins have recently been struck are Indonesia and Libya; other countries have either continued their regular series or have added some new types and denominations.

The supplement is divided into two parts with Part One being devoted to new issues struck since the terminal date of the book in 1950, while Part Two is a compilation of additions and corrections to *Coins of The World*. From time to time, the publishers receive correspondence from interested collectors and dealers calling attention to the fact that certain dates and/or denominations have been omitted from the book. It is our policy, and we think numismatically a wise one, to publish only those coins that we or responsible collectors have actually seen in person, or the reliable information supplied by the various mints of the world. As regards specific dates, it is equally sound to publish inclusive dates only, relegating lists of annual coinages to smaller publications containing specialized accounts. Attention is invited to our last two issues of the *Journal* dealing with the coins of King George the Sixth and that of Portugal and its colonies.

May we thank our many correspondents both here and abroad, both private and official, for their devoted interest. Particular thanks are in order for Messrs. Lauren Benson, Vernon L. Brown, Mortimer Hammel, Ernst Kraus, Walter Lefebre, and John J. Pittman.
